Questions email or call 801 766 4782 9-5 CST

Stationary ladder profile is mounted 20inches (50cm) above ground level to allow folding ladder profile to open fully (note: ladder is supported from wall & does not rely on the open ladder touching ground for support i.e. ladder can be mounted higher than 20 inches if desired)

Notes:

The Ladder will be installed on _____ (Masonry, Concrete or Wood)

Solid masonry construction? (does the brick or masonry hold the weight of the building?)
